

MURATA™
RETAINING WALL SYSTEM

NEW!

Murata™ Cappello MC6060 Charcoal

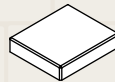

Murata™ Cappello Caps

Murata™ Cappello caps are designed to work with our upcoming Murata™ retaining wall system.

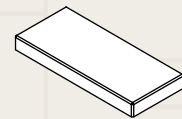

However, they also make a beautiful cap for any of our other wall systems. For instance, Murata™ Cappello MC6060 column cap fits perfectly on a 20" Chateau Wall™ column. The wall caps look marvelous on a free-standing garden wall, and can be used to easily create stable step treads on stairways.

The Murata™ Cappello line of caps make an outstanding addition to our retaining wall line.

Wall Caps

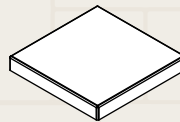

MC4035 Cappello
400x350x80mm • 15.75x13.78x3.15"
